For Training Technology

## Occupational Safety & Health Training

### RISK ASSESSMENT

**Risk – is it worth it?**

*Bafco was established in 2007 to provide industrial professional courses and professional safety training Program to workers in the oil & gas, construction, and general industries.*

*Bafco introduces its programs for beginner, intermediate, supervisor, professional and Manager Level.*

*Bafco proud of its key personnel that bring 15 - 20 years' experience to the classroom, achieving a reputable standing amongst training providers.*

*Our courses are developed by subject matter experts who are certified professionals in environmental health and safety in accordance with the most recent compliance regulations. We offer flexible solutions for any budget to companies needing environmental health and safety training*

### Risk Assessment

Five Stages of a Risk Assessment Process

		Severity of the potential injury/damage				
		1 - No Injuries	2 - Minor Injuries	3 - Moderate Injuries	4 - Major Injuries	5 - Catastrophic Injuries
Likelihood of the hazard occurring	Always Occur	5	10	15	20	25
	Frequently Occur	4	8	12	16	20
	Possible Occur	3	6	9	12	15
	Rarely Occur	2	4	6	8	10
	Extremely Unlikely	1	2	3	4	5

## Description:

Risk assessments are vital to protect your workers and your business. Helping you to focus on the risks that really matter, our risk assessment course will provide you with all the skills you need to comply with the law. Over all, completing risk assessments and effectively managing health and safety in the workplace is good for your business. It not only keeps your employees safer but can have a beneficial impact on business insurance costs – both on premiums and claims. It will also reduce lost production time through employee absence or machinery downtime and improves workers' motivation and productivity.

## Benefits of course:
